1. Introduction

1.1. Zakat, Tax and Customs Authority

The Zakat, Tax and Customs Authority (“ZATCA”) is the entity tasked with implementing, administering, and collecting zakat, tax, and customs in the Kingdom of Saudi Arabia (“KSA”). ZATCA aims to help taxable persons achieve the highest levels of tax and customs compliance.

The role of ZATCA includes raising awareness among taxpayers to help them understand the concept of taxes, and promote voluntary compliance to taxes. ZATCA - ZATCA deems the interpretive decisions as a tool to achieve its role towards taxpayers.

1.2. This Guideline

A mandatory rejection reason:

Any of the reasons stipulated for and set forth in this guideline that require the rejection of the Tax Ruling request

3. Tax Rulings

3.1 What is a Tax Ruling and when does ZATCA issue Tax Ruling?

The request for a Tax Ruling request is a mechanism used by the taxpayer or taxable person to request a reliable opinion by ZATCA on the interpretation of the provisions of the laws and implementing regulations applicable in the Kingdom regarding VAT or income tax (including the withholding tax), on issues related to its economic activity it is currently operating or planning to commence.

When the Authority receives a request for a Tax Ruling, it will initially review the request to assess whether or not it is appropriate to provide a Tax Ruling in this matter, taking into account the following factors:

- The degree of complexity of the matter and the information available to the applicant.
- The relative importance of the transactions or activity subject to Tax Ruling request.
- If the information provided in the application is adequate.
- The extent to which the Public Tax Ruling request would be beneficial, if applicable.
- Availability of the resources and information required by ZATCA to respond to the request.
- Whether or not the applicant provided ZATCA with incorrect information when applying for a Tax Ruling.

ZATCA may also decide to issue optional Tax Ruling at its discretion, not in the form of a response to a previous Tax Ruling request, but rather a general explanation on a matter that ZATCA believes will be beneficial to taxpayers if published.

3.2. Does ZATCA publish its Tax Ruling?

ZATCA may publish the Tax Rulings at its discretion, but it does not publish the taxpayer information in the Tax Ruling or any taxpayer information. Tax Rulings are published anonymously.

3.3. Cases for Tax Ruling request

An applicant can submit a request for a Tax Ruling in the event that he is not sure how to apply the tax laws, regulations, or regulatory tools that are relevant to his case. It could also be related to one of the transactions that he has undertaken or plans to commence, or a series of transactions, or the entire economic activity that he is carrying out or planning to carry out.

Generally, the person who is planning to engage in or has engaged in a specific case or transaction should submit the request for a Tax Ruling

In the event that the Tax Ruling concerns the application of VAT to a certain transaction, it is usually appropriate for the supplier of the goods or services to request a Tax Ruling.

In other cases, the recipient of the supplies can request a Tax Ruling (for example, when applying VAT under the reverse charge mechanism for a transaction with a non-resident supplier or when it is not possible for the supplier to submit the request).

In the event that the Tax Ruling relates to the application of the income tax law to a transaction, it is typically appropriate for the person subject to tax (the taxpayer), or who inquires whether or not he is or will be subject to the law to request a Tax Ruling.

In the event that the Tax Ruling relates to the application of the real estate transaction tax, it is typically appropriate for the person who transacts the real estate or who inquires about whether or not he is or will be considered a person who does a real estate transaction to submit a Tax Ruling request.

A request for a Tax Ruling regarding the application of the Excise Tax is typically appropriate from the registered person or a person who questions whether he will be deemed to be registered.

The Tax Ruling is not designed to be used in circumstance where the parties are in dispute on the application of a tax treatment on a specific transaction. Recipients of goods or services cannot request a Tax Ruling to coerce ZATCA into legally directing suppliers to apply the tax on their supplies. Suppliers may not request a Tax Ruling to force the customer to pay the tax, as this is considered a commercial dispute between the parties to the transaction, and ZATCA shall not consider the parties' requests.

Before submitting a Tax Ruling request, you must review the information and guidelines provided by ZATCA to see if the question or matter subject to the Tax Ruling is answered in the sources and information published by ZATCA.

by ZATCA.

3.4. Cases in which Tax Ruling request are prohibited

 3. Matters involving the interpretations of non-tax laws, regulations, regulatory tools, rules, controls, or policies.
- If the request for a Tax Ruling is not related to the applicant's activity or activities he intends to conduct.

This includes Tax Ruling request that are based on hypothetical transactions or activities.

- If the objective of the Tax Ruling request is different from the objective of explanatory opinion requested by the applicant.

For example, the tax advisor requesting ZATCA's opinion on a specific issue before presenting it to the taxpayers as a private tax advice.

- If the applicant is subject to inspection, or audit by ZATCA or has filed an objection or appeal that is currently being considered on matters related to the same type of tax that is the subject of the Tax Ruling request.
- If the matter is subject to a legal dispute between the applicant and another person or persons, or any matter that would lead ZATCA to take a decision against another person or persons.
- If the Tax Ruling request on the matter was rejected during the previous three months, due to failure to provide the relevant documents in the time specified by the Law.

In addition, ZATCA may deem that it is inappropriate to set assumptions. In such case, ZATCA rejects the Tax Ruling request or ask for more information from the applicant to be reviewed and analyzed.

ZATCA prefers that the Tax Ruling request to be considered on basis of full facts and without assumptions, as ZATCA deems that it is in the interest of the applicant to submit full details for all relevant and important issues to ZATCA with aim to issue accurate and timely Tax Ruling.

7. Usage of Tax Ruling by ZATCA and taxpayers

7.1 Applicability of Tax Ruling

When ZATCA responds for general or Private Tax Ruling, the purpose is to inform the applicant of how to apply current and in force tax laws at that time and according to facts that ZATCA possess and received.

The content of a Tax Ruling may be affected by the following:

- Any changes to the applicant's status or related facts
- Changes to tax laws and its implementing regulations in KSA
- Changes related to the interpretations of tax laws in KSA

The applicant should not expect that the content of Tax Ruling or explanatory opinion will be valid in such cases or indefinitely. If the person is not sure that the interpretations included in the previous Tax Ruling still valid, he may choose to confirm this by requesting a new Tax Ruling.

ZATCA is obliged by the tax treatments in the Tax Ruling and considers maximum accuracy when issuing a Tax Ruling, but any part of the Tax Ruling cannot be considered as an amendment to tax laws and its implementing regulations in KSA or any international agreements to which the Kingdom is a party (such as the Unified Agreement for VAT of the Cooperation Council for the Arab States of the Gulf).

ZATCA provides the Tax Ruling according to facts that ZATCA possess and has submitted to by the applicant. If ZATCA finds that facts and information contained in the request do not reflect the truth or if there are essential facts or information related to the issue did not submit with the request to ZATCA and lead to change the tax treatment, in such case the Tax Ruling shall be null and unreliable. The Tax Ruling is special to the applicant and shall not share it with any other person. No other person shall not rely to this decision or apply it to his transactions.

7.2 Is the applicant can object to the Tax Ruling?

The Ruling is considered a reliable and binding opinion by ZATCA to interpret provisions of tax law or its regulation applied in KSA. In addition, the Tax Ruling interpret any issues related to the economic activity of the taxpayer that he now runs or planning to start it.

A person who has received a Tax Ruling from ZATCA is not obligated to apply the opinion contained in the Tax Ruling to his transactions or activities. For example, if the issuance of the Tax Ruling based on assumptions set by ZATCA but not applicable to this person, in such case that person shall apply the current tax laws in accordance with the actual circumstances.

The Tax Rulings are not subject to objection, since they are a reliable and binding opinion of ZATCA with the purpose to inform the taxpayer of how to apply applicable tax laws in KSA and according to facts that ZATCA possess through the interpretation of the text of tax law and its regulation. Even if these Tax Ruling have been issued under the powers granted to ZATCA, it does not lead to any legal effect in itself; Therefore, these decisions are not subject to objection. However, if the person that received the Tax Ruling deems that the opinion is based on misconception of facts or situation, that person can make a reconsideration request to the Tax Ruling with clarification to the information understood in a way that does not reflect the reality or substance of the transaction.
